PROFESSIONAL SUMMARY

Data Analyst with 5+ years of experience transforming complex datasets into actionable insights for public/private-sector and research organisations. Proficient in R (advanced), Power BI (advanced), Excel, and Git, with solid foundations in Python. Track record of building end-to-end data pipelines, interactive dashboards, and statistical models for large-scale projects—including the Chilean national Census (millions of records). Strong background in data governance, quality assurance, and communicating results to non-technical stakeholders. Combines rigorous quantitative methodology with clear data storytelling to support strategic decision-making.

CORE COMPETENCIES

R / RStudio ★★★	**Power BI ★★★**	**Excel ★★★**
Git / GitLab ★★★	**Python ★★**	**Atlas.ti ★★½**
Statistical Modelling	**Data Governance**	**Data Visualisation**
Survey Analysis	**Large-scale ETL**	**Dashboards & Reporting**

KEY PROJECTS

National Census 2024 — Data Quality & Processing | *INE Chile*

- Designed and applied statistical validation pipelines for millions of census records, ensuring data quality for one of Chile's largest-ever statistical operations.
- Developed automated QA protocols that flagged inconsistencies across multi-variable datasets, reducing manual review time significantly.
- Produced technical reports and data summaries that directly informed institutional strategic decisions.

Educational Data Governance Framework | *SLEP Santa Rosa*

- Built and implemented a data governance framework from scratch for a multi-school public education service, covering standards, ownership, and reporting pipelines.
- Created interactive Power BI dashboards consumed weekly by educational and administrative decision-makers.
- Systematised institutional educational data, enabling the first comparable multi-year performance analysis across the service's schools.

Central Bank Policy Analysis — Fondecyt N°1231356 | *Academic Research*

- Managed and analysed a large corpus of economic-policy documents (2006–2022), applying qualitative and quantitative coding to identify patterns and trends.

- Delivered structured datasets and analytical summaries for peer-reviewed publication.

PROFESSIONAL EXPERIENCE

Data Analyst · *SLEP Santa Rosa — Dept. of Studies, Monitoring & Data*

September 2025 – Present | Santiago, Chile

- Lead end-to-end data workflows: extraction, cleaning, transformation, and visualisation of institutional educational data across multiple schools.
- Design and maintain interactive Power BI dashboards for weekly reporting to management and educational teams.
- Own and evolve the organisation's data governance policy: data dictionary, quality standards, and pipeline documentation.

Senior Methodological Analyst · *INE Chile — Census 2024*

May 2024 – June 2025 | Santiago, Chile

- Processed and validated large-scale microdata (millions of records) for the Chilean Population and Housing Census 2024.
- Designed statistical QA methodologies and led quality-assurance cycles across multi-variable datasets.
- Produced technical reports and analytical briefs used for institutional strategic planning and public dissemination.

Researcher (Data & Policy Analyst) · *Fondecyt N°1231356 — Central Bank of Chile corpus*

May 2024 – August 2025

- Structured and analysed a 16-year longitudinal corpus of economic-policy documents using mixed-methods (quantitative coding + qualitative analysis).
- Managed version control and data documentation using Git, ensuring reproducibility of the research pipeline.

Research Assistant — Statistical Analysis · *Centre for Public Studies (CEP)*

April 2023 – April 2024 | Santiago, Chile

- Statistical systematisation of electoral and public-opinion data: data cleaning, coding, and descriptive analysis in R and Excel.
- Produced regular data-driven bulletins ("Voces del CEP") translating complex survey findings into accessible narratives for policy audiences.

Research Assistant — Computational & Digital Humanities · *CEP — Project C22*

August 2021 – April 2024 | Santiago, Chile

- Applied text-mining and network-analysis techniques to large collections of political documents for socio-constitutional research.
- Co-authored 13 research outputs leveraging quantitative and computational analysis of legislative and constitutional data.

Public Affairs Analyst · *Tironi & Asociados*

August 2021 – March 2023 | Santiago, Chile

- Compiled, cleaned, and analysed political and electoral datasets to support the 2022 Constitutional Bulletin and client consultancy projects.
- Delivered data-backed strategic diagnoses to clients in fast-moving political contexts.

Research Assistant — Socio-environmental Data · *Fondecyt N°1190295*

March 2022 – March 2023

- Processed qualitative and quantitative datasets on socio-ecological systems in Chiloé for academic research on critical transitions.

EDUCATION

B.A. in Sociology — Summa Cum Laude, 1st in graduating class

Universidad Diego Portales, Chile | 2017 – 2021

Honours Diploma in Mobility & Transport

Universidad Diego Portales, Chile | 2019 – 2020

LANGUAGES

Spanish	Italian	English
Native	C1 — Advanced	B2 — Upper Intermediate

SELECTED PUBLICATIONS

Peer-reviewed: Frei, R., Cordero, R., Lang, B. et al. (2024). Claims of ownership, claims of dignity. *Journal of Language and Politics, 23*(5), 723–746.

Policy Papers & Research Notes: 13 publications (2022–2023) on Chilean constitutional politics, polarisation, and public opinion. Co-authored with Mascareño, A. et al., Centre for Public Studies (CEP).
