BENJAMÍN LANG BUSTOS

Sociologist · Data Analyst · Monitoring and Evaluation · Business Intelligence

Santiago, Chile · benjamin.lang.bustos@gmail.com · +56 9 6309 5562 · LinkedIn · Portfolio

PROFESSIONAL SUMMARY

Sociologist (Universidad Diego Portales, highest honors) and Data Analyst with more than 5 years of experience in the public sector, applied research and consulting. Experience in large-scale data processing (2024 National Census, INE), education data analysis and program monitoring (SLEP Santa Rosa), data governance, Power BI dashboards and automated reporting in R. Co-author of academic and public policy publications. Uses AI in a practical, responsible way to automate processes that involve sensitive data, and communicates results clearly to leadership teams and non-technical audiences.

TECHNICAL SKILLS

R / RStudio — Advanced **Power BI** — Advanced **Excel** — Advanced	**Git / GitLab** — Advanced **Python** — Intermediate **SQL** — Intermediate
Applied AI and Automation · Claude Code · Web Scraping · ETL · Quarto / R Markdown / LaTeX	**Data Governance · Monitoring and Evaluation** · Statistical Modeling · Survey Analysis · Mixed Methods

PROFESSIONAL EXPERIENCE

Data Analyst · SLEP Santa Rosa — Dept. of Studies, Monitoring and Data *Oct 2025 – Present*

- Leads end-to-end data workflows (extraction, cleaning, transformation and visualization) for education data from multiple public schools.
- Designs and maintains interactive Power BI dashboards used weekly by leadership and education teams, complemented by automated monthly reports built in R Markdown, Quarto and LaTeX.
- Processes and analyzes learning outcomes (SIMCE and PAES tests), enrollment, attendance and trajectories, and builds management and program implementation indicators.
- Built and implemented the organization's data governance framework from scratch: data dictionary, quality standards and pipeline documentation.
- Developed an institutional website for data reporting, and trains teams to use dashboards and data tools.

Senior Methods Analyst · INE Chile — 2024 Population and Housing Census *Jun 2024 – Apr 2025*

- Processed and validated large-scale microdata for the National Census.
- Designed automated pipelines for statistical quality control.
- Produced technical reports and analytical briefs used directly for institutional strategic planning and public dissemination.
- Took part in designing the census questionnaire and analyzing the census pretests, following international standards.

Researcher — Data Analyst · Fondecyt Grant 1231356 *May 2024 – Aug 2025*

- Structured and analyzed a 16-year longitudinal corpus of economic policy documents (2006–2022) using mixed methods: quantitative coding and qualitative analysis.
- Managed version control and data documentation in Git, keeping the research pipeline reproducible.
- Delivered structured datasets and analytical summaries for peer-reviewed academic publication.

Research Assistant — Statistical Analysis · Centro de Estudios Públicos (CEP) *Apr 2023 – Apr 2024*

- Systematized electoral and public opinion data (CEP Survey, 2023 constitutional votes): cleaning, coding, and descriptive and inferential analysis.
- Produced the "Voces del CEP" bulletin, turning complex survey findings into accessible narratives for policy audiences.

C22 Research Assistant — Digital Humanities · CEP — C22 Project *Aug 2021 – Apr 2024*

- Applied text mining and network analysis to large collections of political documents for socio-constitutional research.
- Analyzed the education outcomes of the Local Public Education Services (SLEP) and the SIMCE results of their schools, in briefs and research reports.
- Co-author of 13 academic publications based on quantitative and computational analysis of legislative and constitutional data.

Public Affairs Analyst · Tironi y Asociados *Aug 2021 – Mar 2023*

- Collected, cleaned and analyzed political and electoral data for the 2022 Constitutional Bulletin and strategic consulting projects.
- Delivered data-driven assessments in fast-moving political contexts.

PERSONAL AI PROJECTS

Job search assistant with AI agents · Personal project *Jul 2026 – Present*

- Adapted an open-source agent framework built on Claude Code, originally created for Denmark, to the Chilean job market: the AI assesses fit with each posting, drafts a tailored CV in Word and reviews it against a checklist.
- Built scrapers for Empleos Públicos (internal API), more than 25 think tanks and the LinkedIn feed, plus a public web viewer of postings published on GitHub Pages.
- In three months it processed more than 500 postings and 33 applications with a tailored CV. Designed rules that stop the AI from claiming experience that could not be defended in an interview.

EDUCATION

B.A. in Sociology — Highest Honors, 2nd of 49 graduates · Universidad Diego Portales *2017 – 2021*

Honors Diploma in Mobility and Transport · Universidad Diego Portales *2019 – 2020*

LANGUAGES

Spanish — Native **Italian** — C1 Advanced **English** — B2 Upper Intermediate

SELECTED PUBLICATIONS

Peer-Reviewed Article

Frei, R., Cordero, R., Lang, B. et al. (2024). Claims of ownership, claims of dignity. *Journal of Language and Politics*, 23(5), 723–746.

Policy Papers and Research Notes

13 publications (2022–2023) on Chilean constitutional politics, polarization and public opinion. Co-authored with Mascareño, A. et al., Centro de Estudios Públicos (CEP). Available at cepchile.cl.
